Reception

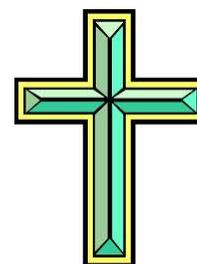

Autumn Term

Religious Education

In RE we are learning about:

- Myself - The children will be able to recognise that their name is important and that God knows and loves each person by name.
- Welcome - The children will learn that our lives are marked by many different experiences of being welcomed into new situations and groups before being introduced to Baptism.
- Birthday - The children will begin to understand that Advent is a time of waiting for the celebrations of Jesus' birth.

Personal, Social and Emotional

We will be learning our class rules to enable the children to become aware of the boundaries set and of behavioural expectations in their new setting. This will help the children to accept each other's needs, to take turns and to share.

Communication and Language

The children will have lots of opportunities to use their listening skills on the carpet during whole class inputs. Children will also be encouraged to share their thoughts and ideas during whole class Circle Times. The Role Play areas will be used during child initiated activities and adult directed activities to encourage talk.

Physical Development

The children will have opportunities to develop important skills such as handwriting and cutting. During the first few weeks of Reception, we teach the children how to wash and dry their hands thoroughly; we encourage independence in removing jumpers/coats and accessing toilets.

Literacy

Much of the focus will be on Phonics during the Autumn Term. Our phonics programme is 'Letters and Sounds'. During the first few weeks, name writing will be practised regularly. Following this, children will begin to use their phonetic knowledge to write labels and sentences using, primarily, their initial sounds.

OUR LADY OF THE VISITATION CATHOLIC PRIMARY SCHOOL

'We Learn, Love and Grow through Christ'

Mathematics

Mathematics sessions will enable children to explore and investigate number using a range of hands on resources. They will practise matching numbers to quantity and learn to form numbers correctly. The children will also have opportunities to explore pattern and shape.

Understanding the world

We will spend time discussing the different parts of our bodies and explore the five senses. We will use the Interactive White Board and class computers to support our computing skills.

Expressive arts and design

In Music we will learn new songs that link with our current topic. We will use percussion instruments during our music lessons and develop our understanding of rhythm. We will be exploring different textures in art, and have opportunities to create self-portraits.

Topic

Our topics are planned around the children's interests and as a result the theme might change slightly over the coming weeks. Our general themes for this term are 'All About Me', 'Traditional Tales' and 'Christmas'.

Important Dates

- Wednesday 2nd October 9:00am - Phonics Workshop
- Friday 27th September - MacMillan Coffee Morning
- Thursday 17th October - Parent Consultations
- Litten Dates:

Butterflies	Bumble Bees
7 th November PM	21 st November PM
5 th December PM	12 th December PM
