

24.04.19 Numbers to 50

The image contains several number grids for a math activity. The grids are arranged as follows:

- Top Left:** A grid with 1 in the top-left cell, 11 in the middle-left cell, and 13 in the middle-right cell. There are empty boxes in the top-right, middle-middle, and bottom-left cells.
- Top Right:** A grid with 4 in the top-left cell and 14 in the middle-left cell. There are empty boxes in the top-middle, top-right, middle-middle, and bottom-left cells.
- Middle Left:** A grid with 15 in the top-middle cell, 24 in the middle-left cell, and 26 in the middle-right cell. There are empty boxes in the top-right, middle-middle, and bottom-right cells.
- Middle Right:** A vertical grid with 28 in the top cell and three empty boxes below it.
- Bottom Left:** A 2x2 grid with 32 in the top-left cell and three empty boxes in the other cells.
- Bottom Middle:** A grid with 17 in the top-middle cell and 26 in the middle-left cell. There are empty boxes in the middle-middle, middle-right, bottom-left, bottom-middle, and bottom-right cells.
- Bottom Center:** A cross-shaped grid with 44 in the center cell and four empty boxes in the top, bottom, left, and right cells.
