

Independent Task

- Get an empty jar or box
- Write down or draw coins on a piece of paper and place it in the jar (print them off the next slide if you can)
- Pick two coins out and decide which one you'd rather have and why?

Answers

The highest value coin is the 10p as it needs 10 pennies to make the same value.

The 1p is the least in value as its value is 1 pence.
